APR - 3 2003

Federal Communications Commission  
Office of the Secretary

Just read an article in Budget Living Magazine on Cell Regeneration which makes sense. I would like to get a cell phone but do not want to give **up** my phone number which we have had for over 25 years! Please pass the legislation that was discussed in the article. It would make life easier for users and the phone companies would eventually realize that good service and fair charges will **pay** off for them as well. It would free up hundreds of thousands of numbers too!

Thank you for listing - June Kucia
